DETAILED ACTION

1. The prior art cited in the indicated prior applications will be considered when the applications become available for reviewing. Accordingly, the information disclosure statement filed on September 15, 2003, referring to prior art cited in the prior application, will be considered in due course.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Rossler (US 5,952,797).

Rossler discloses a model train system having all the feature recited in the instant claims, including remote control unit 22, track interface unit 20, and track layout 1; wherein, track interface unit 20 converts the commands from remote control unit 22 into a modulated signal and outputs it to track layout 1.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Applicant should further consider the structures of Graf and Tanner.
